RE: Closed Captions closure

Dear Sir:

As a constituent with a severe hearing loss (the affects of having Scarlet Fever when I was 9 Months old in 1928, I beg you please do not let this happen.

With closed caption I can now watch a program and KNOW WHAT IT IS ABOUT. Please don't take that luxury away from me. You wouldn't suppose anything that would remove white canes, eye seeing dogs from the blind would you? Aren't the deaf just as handicapped?

Respectfully submitted,

Juanita R. Ganci
